

ADDENDUM # 3
September 20, 2017
ACADIANA PLANNING COMMISSION
REQUEST FOR PROPOSAL
For
AERIAL PHOTOGRAPHY AND GEOSPATIAL SOFTWARE PLATFORM
PROPOSAL DUE September 29th 2017, 4:00PM CST

1.Can digital copies of the geographic boundaries shown in addendum 2 be provided, for both resolutions required? This can be in any digital format, such as Esri Shapefile, Google xml, etc

The “digital shapefile” for this approximated urban area is derived from TIGER/Line® Census Urban areas, Corporate Limits and other identified urban areas. Currently, this area is only an estimate, see section 4.1 on approximate square mileage. During the contractual phase, the APC working with the selected vendor will refine densely populated priority areas and distribute that as a finalized digital boundary.
